Sheet Metal I-A	English Math Test or Class	None	Math 1.5 hr
Welding Construction I-A	English Math Test or Class	None	Math 1.5 hr

Math Test - Students are allowed to retest if they scored less than 70 but will need to wait a minimum of two days after the first attempt. If they did not pass on the second try, they are allowed to do a third and final retest IF they scored a minimum of 52 points on either of the first two tries. They will need to wait a minimum of two days after the second attempt to retest and the test will consist of only 10 questions on paper to show their work. Student who are unable to pass after the third attempt will need to take and pass the Applied Construction Math class before they can start a class that has a math prerequisite.

Spanish Tests - If the tests are administered in Spanish the ESL Placement test must be administered to see which ESL class will be taken.

Contact the CEF office to schedule a test.
